

Lox API

A comprehensive fantasy football research platform that combines an intelligent AI agent with powerful data tools. The Lox API provides access to the **Lox Genie**, an advanced fantasy football research agent built with LangGraph, and the **Lox MCP Server**, a Model Context Protocol server offering specialized fantasy football data tools.

What is Lox Genie?

Lox Genie is an intelligent fantasy football research agent that provides actionable advice and analysis. Built with LangGraph, it features a sophisticated multi-node architecture that:
